

An Open Letter

TO THE HOUSEKEEPERS OF POWELL COUNTY:

Have you ever noticed the way that the prices of merchandise dropped in Clay City immediately after the Farmers' Union started business here. Most certainly they did drop just as soon as our prices became known. Our business has grown by leaps and bounds and is still growing, mainly because our prices are low and the quality of our goods high. Other merchants try to compete with us, but after several years of charging any prices they pleased, they find it hard to come down to our prices.

At the same time we pay the farmer a higher price for what he has to sell. Of course, we don't make as much profit but we believe in the motto "Live and Let Live". Think of this when ordering your supplies and call and see us.
